

Neilcott Newsletter

King Solomon Academy

Older Years Site

January 2021

Welcome to our January newsletter about the ongoing works taking place at King Solomon Academy, Older Years Site. As works progress we will continue to provide a monthly update on progress and movements in and around the construction site.

What are we building?

The project involves

- Remodelling of parts of the existing buildings
- A new dining hall to be built in the confines of the courtyard

Construction Progress

Since our last correspondence, excellent progress has been made on site and the project remains on plan and to programme. Last month we saw a number of areas being brought to completion. These include:

- Ground floor classroom refurbishment
- South block, 1st floor toilets
- 1st floor science lab converted to a classroom

Current and forthcoming works include:

- Works to the second floor toilets
- Existing classroom refurbishment into a new science lab
- Progress works within the new dining hall including roof finishes, internal fit out and structural glazing
- Installation of new fire doors to the South Block

We would like to thank the school and our surrounding neighbours for your patience whilst we carry out the construction works. We would also like to take this opportunity to wish you and your families a happy

and safe 2021. Should you have any questions or concerns, please do not hesitate to contact a member of our team below.
